Functions and performance levels:

**basic requirements for protective footwear** (see Table 2 and 3 of the EN ISO 20346:2004+A1:2007): all applicable ones (except for the resistance to fuel oils – considered as not important for the intended use of this item) – among which:

**SRC = slip resistance** – meet BOTH requirements:

- Surface: ceramic / lubricant: detergent solution
- Surface: steel / lubricant: glycerin.

**Additional requirements** (see Table 14 of EN ISO 20346:2004+A1:2007):

**A=** antistatic properties, **E=** Energy absorption of the seat region.

**Note:** this footwear also meets the requirements for the **electrostatic discharge environmental class 2** in accordance with **EN ISO 61340-4-3:2001** (electrostatic dissipative footwear).

Marking:

directly printed in the outsole, it includes the following information:

- **CE Marking** indicating the conformity of the PPE to the provisions of the Directive 89/686/CEE (and later amendments);
- Unambiguous identification of the product (=AWP S);
- Size;
- Month and year of production (with clock indicator).

**Note:** the Technical File contains a more detailed description of the PPE (material, method of assembly, photographs or drawings), performance data, safety functions and level of protection, elements of conformity to the basic and supplementary requirements. The Technical File is integral part of the present Certification, which has to be kept available by the applicant to be forwarded - upon request - to the entitled person (supervising body, Controlling Officer).
